

LedPerf.com c'est la plus large gamme d'ampoules leds intérieur et extérieur pour veuilleuses, plaques, feux de jour, kit xénon, led pour clignotants...pour auto et moto

## Use of dominoes

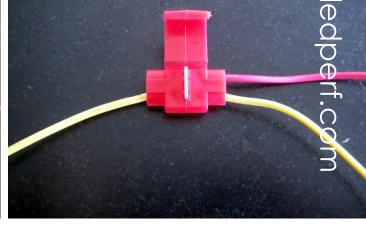

Place the (+) pilot cable (yellow wire) and the band cable (red wire) in the domino :

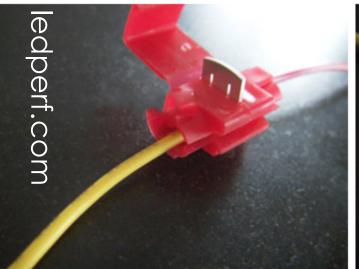

<sup>1st</sup> possibility

<sup>2nd</sup> possibility (yellow wire not cut)

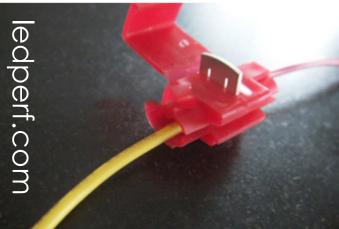

Pilot cable in one hole

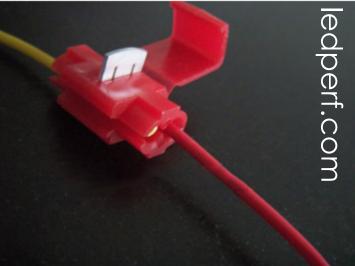

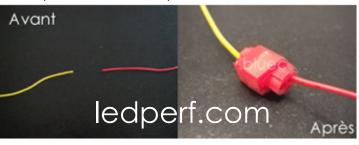

Then lower the metal

Band cable in the other hole

part and close the cap

Caution: Use one domino for each cable of the tape. For each band, there are 2 dominoes to use because there is a cable (+), and a cable (-).
